International Wine Challenge Merchant of the Year 2012-13

## **Post Budget Wholesale List - Spring 2017**

## **Post-Budget Wholesale Price List - Wines, Beers, Ciders and Soft Drinks - Effective 3rd April 2017**

We are pleased to present our new Wholesale Wine List, with prices updated after the Budget 2017, which saw duty rates rise by 3.9%. We have taken this opportunity to review prices in the light of duty, currency and producer-led price changes. Some prices remain the same as in our January list, some have moved up and some down. Given the period of instability we have experienced since the Referendum last June, we now anticipate a period of relative calm, and do not expect to change our prices again for the rest of 2017.

### **Importing and Buying Direct**

Cambridge Wine Merchants is a wine importer, wholesaler and retailer, franchisor and broker, which gives us access to the entire drinks market. For our wholesale list we focus on producers who make not only great quality products, but who make them with consistency and at fair prices. To offer these to you at the best possible price we import directly, and often exclusively, from the winery and also buy directly from distilleries and breweries in the UK.

### **Allergen information**

The new EU directives 2003/89/EC and 2006/142/EC on allergens contain specific requirements for wine labelling. The law is designed to alert consumers to wines which have used milk or egg products in the fining process and have not tested negative for residues using a technique with a detection limit of 0.25mg/l. Labels may now read "Contains sulphites, milk, egg." Wine from the 2011 vintage and earlier are exempt from the latest EU labelling rules. We have contacted many of our suppliers, all of whom are complying with the regulations, though none have discovered residues above the detection limit. All people serving wine to customers should refer to the label if asked about allergen information

### **Core Lines**

The range of products on our core list comes from detailed analysis of existing customer requirements as well as our buying team's research into quality, value and availability. These are wines we love to drink and want you to like as much as we do. There are new lines here as well as ranges from growers we have been working with for decades. With over 20 years' experience we are knowledgeable and serious about what we buy. We seek quality at prices that make sense. We also offer an own label wine service. Please contact us for details.

### **Larger Range Available on Request**

We work with many growers, breweries and distilleries that do not appear in the core list. Please contact us with special requests and to discuss further. Products not in the core list might have limited availability but we very much enjoy working with the producers and want to tell you about them.

### **Magnums and Small Bottle Range Available**

Please contact us to talk about the range of Jeroboams, magnums, halfbottles and quarter-bottles we have in stock and available.
